housing preferences of the boomer generation how they compare to other home buyers is the latest study in nahb s long history of tracking the evolution of home buyer

preferences how do various designs and features influence the home purchase decision what influence do life events and people have on the decision to move to another home age can play a significant role in what buyers want to see in a potential new home this study presents findings not just for the average home buyer but also highlights the housing preferences of baby boomers those born between 1946 and 1964 and how they compare to buyers of other generations housing preferences of the boomer generation how they compare to other home buyers discusses the latest data on preferences for home size central city versus the suburbs kitchen bathroom and community features and much more

mocked vilified blamed and significantly misunderstood the baby boomers are members of the generation of post wwii babies who came of age in the 1960s parents of the 1940s and 1950s raised their boomer children to be respectable church attendees and yet in some ways demonstrated an ambivalence that permitted their children to spurn religion and eventually to raise their own children to be the least religious generation ever the baby boomers studied here living in the uk and canada were the last generation to have been routinely baptised and taken regularly to mainstream anglican churches so what went wrong or perhaps right this study based on in depth interviews and compared to other studies and data is the first to offer a sociological account of the sudden transition from religious parents to non religious children and grandchildren focusing exclusively on this generation of ex anglican boomers now in their 60s and 70s the boomers featured here make sense of their lives and the world they helped create they discuss how they continue to dis believe in god yet have an easy relationship with ghosts and how they did not as theologians often claim fall into an immoral self centred abyss they forged different practices and sites whether in this world or elsewhere of meaning morality community and transcendence they also reveal here the values practices and beliefs they transmitted to the future generations helping shape the non religious identities of generation x millennials and generation z

bringing together a number of perspectives on the japanese housing system housing and social transition in japan provides a comprehensive challenging and theoretically developed account of the dynamic role of the housing system during a period of

unprecedented social and economic change in one of the most enigmatic social political and economic systems of the modern world while japan demonstrates many of the characteristics of some western housing and social systems including mass homeownership and consumption based lifestyles extensive economic growth and rapid urban modernization has been achieved in balance with traditional social values and the maintenance of the family system helpfully divided into three sections housing and social transition in japan explores the dynamics of the development of the housing system in post war japan deals with social issues related to housing in terms of social aging family relations gender and inequality addresses the japanese housing system and social change in relation to comparative and theoretical frameworks as well as providing challenges and insights for the academic community at large this book also provides a good introduction to the study of japan and its housing economic social and welfare system generally

this story of hope for both immigrants and native born americans is a well researched insightful and illuminating study that provides compelling evidence to support a policy of homegrown human investment as a new priority a timely valuable addition to demographic and immigration studies highly recommended choice virtually unnoticed in the contentious national debate over immigration is the significant demographic change about to occur as the first wave of the baby boom generation retires slowly draining the workforce and straining the federal budget to the breaking point in this forward looking new book noted demographer dowell myers proposes a new way of thinking about the influx of immigrants and the impending retirement of the baby boomers myers argues that each of these two powerful demographic shifts may hold the keys to resolving the problems presented by the other immigrants and boomers looks to california as a bellwether state where whites are no longer a majority of the population and represent just a third of residents under age twenty to afford us a glimpse into the future impact of immigration on the rest of the nation myers opens with an examination of the roots of voter resistance to providing social services for immigrants drawing on detailed census data myers demonstrates that long established immigrants have been far more successful than the public believes among the latinos who make up the bulk of california s immigrant population those who have lived in california for over a decade

show high levels of social mobility and use of english and 50 percent of latino immigrants become homeowners after twenty years the impressive progress made by immigrant families suggests they have the potential to pick up the slack from aging boomers over the next two decades the mass retirement of the boomers will leave critical shortages in the educated workforce while shrinking ranks of middle class tax payers and driving up entitlement expenditures in addition as retirees sell off their housing assets the prospect of a generational collapse in housing prices looms myers suggests that it is in the boomers best interest to invest in the education and integration of immigrants and their children today in order to bolster the ranks of workers taxpayers and homeowners america they will depend on ten and twenty years from now in this compelling optimistic book myers calls for a new social contract between the older and younger generations based on their mutual interests and the moral responsibility of each generation to provide for children and the elderly combining a rich scholarly perspective with keen insight into contemporary political dilemmas immigrants and boomers creates a new framework for understanding the demographic challenges facing america and forging a national consensus to address them

home ownership has been widely regarded as the best financial investment in the pursuit of wealth accumulation americans believe that the appreciated value of a home provides a great hedge against inflation giving homeowners an opportunity to make a profit when they sell the property today two thirds of american families own their homes nearly 80 percent of the 78 million baby boomers are homeowners many of them have bought and sold several homes yet close to 90 percent of american families are broke nothing consumes more of our hard earned money than home ownership what if this popular best investment choice is nothing more than a dangerous dream is home ownership simply a huge economic scam designed to keep buyers broke could homeowners be working to pay a mortgage that make their lenders rich while they stay poor what if home equity is only an illusion could renters be in a better financial position than those who own their home renters win homeowners lose revealing the biggest scam in america is a bold approach in unraveling the long term financial reality of home ownership in america the book compares buying a home to renting and reveals that renters clearly have tangible financial advantages over the majority of homeowners

renters can truly be winners tables and models are used throughout the book to poignantly demonstrate that most homeowners receive no more than a zero percent return on their investment and many lose money in the deal renters win homeowners lose revealing the biggest scam in america will get you to rethink the way you view home ownership versus renting the book is a thought provoking masterpiece
